ICMA SOVEREIGN BOND CONSULTATION PAPER SUPPLEMENT

For members of ICMA

INTRODUCTION

1. ICMA’s primary objective is to support the creation of orderly and well-functioning international capital markets. In line with ICMA’s mission, this involves setting standards of best market practice, through contract reform and practical improvements to standard form market documentation.

2. In December 2013, ICMA consulted its members on two matters related to sovereign bonds (the "Original Consultation Paper"). The Original Consultation Paper proposed new standard form aggregated collective action clauses for inclusion in all government securities (that are not otherwise subject to the mandatory euro area model collective action clause introduced in January 2013). The Original Consultation Paper also set out plans to publish for the first time a standard pari passu provision for inclusion in sovereign debt securities.

3. For ease of reference, the Original Consultation Paper can be viewed at http://www.icmagroup.org/resources/Sovereign-Debt-Information/. We recommend that this consultation paper supplement (the "Consultation Paper Supplement") is read alongside the Original Consultation Paper.

SINGLE LIMB STANDARD AGGREGATED CACs

4. As discussed in our Original Consultation Paper, aggregation allows bondholders across different series of bond issues to vote collectively in response to a proposed modification or action in respect of all their bonds; binding all bondholders if the requisite number approve such a modification or action. This mechanism enables a wider range of bondholders to be bound by a single restructuring proposal and should disincentivise creditors looking to dissent from acquiring holdings that might block a restructuring which is otherwise approved by the majority.

5. In view of comments received in response to the Original Consultation Paper, as well as ICMA's participation in a number of informal cross-border discussion groups on the current sovereign debt restructuring architecture and potential ways to enhance it, we have reached the view that it would also be helpful to consult with Members as to the addition of a single aggregation voting mechanism (the so-called "single limb" voting approach) in the new proposed ICMA Standard Aggregated Collective Action Clauses ("Standard Aggregated CACs") for sovereign notes. The single limb voting approach would aggregate the votes across all affected series of bonds to determine whether the requisite voting threshold had been met and the proposed modification or action approved.

6. The advantage of adopting a single limb aggregation voting mechanism is that it would reduce the risk, where a majority of a sovereign's creditors are supportive of a
restructuring proposal, of a minority of creditors disrupting or blocking a sovereign
debt restructuring.

To date, the collective action clauses in the small number of sovereign bonds which
have included an aggregation mechanism (other than as issued by euro area member
states) have been structured so as to require two voting thresholds to be met (the so-
called "two limb" voting approach). The two limb voting aggregation feature has been
present in the new euro area model CAC since January 2013, and a two limb voting
aggregation mechanism was proposed in the Original Consultation Paper.

Under a two limb voting approach, the first of the two limbs is an overall vote taken
across all affected series of bonds. The second of the two limbs is a separate vote
within each affected series of bonds. Some parties are of the view that collective
action clauses with a two limb voting aggregation mechanism remain open to the
possibility that, if a dissenting minority can build a sufficient stake in one or more
individual series of bonds, it can still block a restructuring which otherwise has the
support of an overall majority of bondholders across all affected series of bonds. This
could have severe consequences for a country seeking to solve its debt problems,
including the risk of a damaging and disorderly default for the country. Much of the
ongoing discussion has, therefore, centred around introducing a single limb
aggregation mechanism to facilitate sovereign debt restructurings which have the
support of an overall majority of bondholders across all affected series of bonds.

Aggregation under a single limb voting mechanism provides a significantly more
predictable process for restructuring the sovereign debtor’s affected debt securities
than is the case with a restructuring being executed on a series-by-series basis. The
sovereign debtor will benefit from knowing that a successful vote will result in a full
restructuring of its affected debt securities. Creditors will also benefit from knowing
that if the restructuring offer is approved by a super-majority of creditors that holdout
creditors will not be able to seek to recover on the original bonds and the economic
uncertainty associated with potential payouts to holdouts will be eliminated. Some
commentators, including a number of investors in sovereign debt, have also expressed
the view that by eliminating the uncertainty of outcomes that can arise under the two
limb voting approach, the single limb voting aggregation mechanism would facilitate
determinations as to the pricing impact of a bond including a collective action clause,
as well as enhancing the predictability and speed at which a settlement can be reached
with a sovereign debtor requiring to restructure its debt.

7. The fact is, nevertheless, that a collective action clause allowing for aggregation under
a single limb voting mechanism provides a potentially powerful tool for a sovereign
debtor and a supermajority of its creditors and, consequently, ICMA believes that a
number of safeguards should be included in such a provision to protect minority
interests.

8. The key objective is to include safeguards within the clause without creating
additional legal risks or undermining the operation of the enhanced aggregation
mechanism. These safeguards would therefore primarily be to ensure that there is
adequate protection of affected creditors’ rights and interests, and also to ensure that

---

1 The euro area model CAC has been mandatory in all euro area government securities with a maturity above
one year issued since 1 January 2013.
the sovereign debtor does not discriminate against a minority or face the risk of legal challenge.

In this regard, we would propose:

(a) that the overall voting threshold is set at a reasonably high level, compatible with the supermajority voting requirements that are currently found in most sovereign bonds, and that this is measured by reference to the outstanding principal amount of affected series of bonds;

(b) that the revised Standard Aggregated CACs include protective disenfranchisement provisions to exclude bonds owned or controlled by the Issuer from the vote;

(c) an information covenant to ensure that the Issuer's restructuring plan (including debt sustainability analysis, the underlying economic and financial circumstances and proposed treatment of other major creditor groups) are available to all bondholders prior to the restructuring proposal being put to a vote of the bondholders. This should encourage the prior consultation, cooperation and effective communication with the relevant bondholders in order to facilitate the reaching of the requisite majority support for voting threshold purposes;

(d) that any proposal put to creditors if the single limb voting aggregation mechanism is to be utilised, will need to ensure that the offer being made to affected series of bonds will be uniformly applicable ("Uniformly Applicable"). This would broadly mean that the same new instrument or other consideration is, or the same menu of instruments or other considerations are, offered to all creditors whose instruments are subject to the aggregation, or that amendments being proposed to such instruments would, if implemented, result in the amended instruments having identical provisions. The objective is that these "same offer" requirements will allow for appropriate consideration of an individual sovereign debtor's circumstances. For example, provisions to address interest that has been accrued but not paid may be appropriate. The offer on unpaid but accrued interest should treat all unpaid interest the same, but need not treat accrued or past due interest the same as principal;

(e) in addition, it is envisaged that aggregation can cover all series of debt securities which include the Standard Aggregated CACs or a subset of such series with contiguous maturities. Where the debtor aggregates series in multiple groups it will be required to provide a description of the proposed treatment of each such group; and

(f) that the issuer can, in the alternative, opt to make use of:

(i) the two limb voting aggregation mechanism; or

(ii) the series by series collective action mechanism (i.e. the conventional, non-aggregated collective action clause found in the vast majority of issued sovereign bonds),
where the Uniformly Applicable and Contiguous Maturities conditions cannot be met, or, should the issuer choose to do so.

9. The current proposal provides for the same offer on the same unit of par value; it should be noted, however, that it does not seek to benchmark or equalise a similar form of NPV loss across the different series of bonds being restructured. Considerable amount of work has been done to develop such a benchmark; a view has, however, been reached that, because of the number of assumptions that would need to be made in such a formula (for example, the discount rate to be applied), the level of complexity involved could lead to challenge where a party is minded to test whether the economics of the instruments being offered comply with the benchmark included. Similarly, such a formula or model would likely be so complicated and unwieldy that it might deter use of the single limb aggregation alternative altogether. The Uniformly Applicable concept, compliance with which can easily be ascertained, should therefore be preferable, such that both the debtor and the holders of affected series of bonds, as well as parties such as trustees or fiscal agents, can readily determine whether a proposal satisfies this important condition. The requirement to offer bonds of equal par value the same terms seeks to be consistent with principles of bankruptcy law, as well as to reflect the fact that in the event of non-payment, bondholders generally have the right to accelerate and demand full payment of the principal (although the Standard Aggregated CACs it should be noted may be used prior to a default). For zero coupon bonds, the accreted par value of their claim would need to be calculated.

10. As indicated above, under the revised Standard Aggregated CACs scheduled to this Consultation Paper Supplement, therefore, the Issuer would have the option to put a modification or action proposal to its bondholders pursuant to any one of or a combination of the three collective action mechanisms included in the new Standard Aggregated CACs (see: Modification of this Series of Notes only; Multiple Series Aggregation – Single limb voting; Multiple Series Aggregation – Two limb voting.)

11. For example, there may be circumstances where, a sovereign debtor may wish to offer different instruments to different creditors (which might also entail proposed modifications or actions which are substantially comparable in NPV loss terms). In such circumstances, the "Uniformly Applicable" condition would not be met, resulting in the single limb aggregation mechanism not being applicable. In that case the sovereign debtor would be able to choose to invoke either the two limb voting aggregation mechanism or revert to the individual series by series collective action mechanism.

12. As the single limb voting aggregation mechanism combines the votes of bonds with different terms and conditions, the protection against discrimination in respect of the interests of any individual series are particularly important. The types of legal safeguards referred to above can limit the legal risk which may arise from their use. The potential for any such risk to arise will need, however, to be addressed by any sovereign debtor making use of this mechanism in an appropriate way at the time of restructuring. Awareness of this combined with suitable bondholder consultation will inevitably increase bondholder participation and deliver the benefits provided by the revised Standard Aggregated CACs.
INVITATION TO RESPOND TO THE CONSULTATION PAPER SUPPLEMENT

13. The proposed revised Standard Aggregated CACs (including the single limb aggregation mechanism) is set out in Part A of the Schedule in this Consultation Paper Supplement. Part B of the Schedule is a blackline showing the amendments made to the Standard Aggregated CACs circulated with the Original Consultation Paper, for ease of reference.

14. ICMA invites views from its Members on the proposals in this Consultation Paper Supplement by 17 July 2014. Comments should be sent by email to sovereignbondconsultation@icmagroup.org identifying the organisation on whose behalf the comments have been sent, indicating if the organisation wishes to keep its name confidential, and giving an email address and phone number of a point of contact.

Taking account of the comments received in response to the Original Consultation Paper and this Consultation Paper Supplement, ICMA plans to publish recommendations in respect of a new form of Standard Aggregated CACs for inclusion into the terms and conditions of sovereign notes.

The revised Standard Aggregated CACs does not as yet reflect the comments received from Members on the Original Consultation Paper. These will be reflected in ICMA's new proposed Standard Aggregated CACs once responses have been received to this Consultation Paper Supplement.
POUNTS FOR CONSULTATION

ICMA would welcome input from Members on the addition of the single limb voting aggregation mechanism to the draft Standard Aggregated CACs. Points for consideration include:

1. Do Members agree with the basic premise that it would be sufficient under the single limb voting approach for the relevant modification or action to be approved by the requisite number of bondholders voting in a single aggregated group across all affected series of debt securities rather than it also being necessary for a majority of the bondholders in each affected series of bonds to vote in favour of the modification or action being proposed?

2. Do Members agree that for the single limb voting aggregation mechanism included in the Standard Aggregated CACs, the voting threshold of 75% of the outstanding principal amount of all affected series of bonds issued by the sovereign debtor is the appropriate level at which to set such a threshold?

3. In order to provide the greatest flexibility, it would be left to the sovereign debtor to determine: (i) which affected series of bonds would be aggregated together for the collective voting; and (ii) which aggregation mechanism to utilise (single limb voting approach or two limb voting approach). Do Members have any comments in relation to the features in the Standard Aggregated CACs which allow the sovereign debtor to choose between approaching creditors on any one of a single limb voting or a two limb voting aggregated basis or on a single series by series basis?

4. Additionally, in view of the need to comply with the Uniformly Applicable and Contiguous Maturities conditions, even where an Issuer wishes to avail itself of the single limb aggregation mechanism in respect of a significant number or all of its debt securities, it may need to aggregate series of debt securities into separate groups. Do Members agree that, in view of the two different aggregation mechanisms and the further option for a sovereign debtor to choose the single series by series collective action mechanism, it will, inevitably, need to be left to the sovereign debtor to determine which series of bonds should be aggregated and under which aggregation mechanism, if at all?

5. Alternatively, should aggregation be limited to the aggregation of instruments by reference to other criteria, for example, the same governing laws?

6. Do Members agree that the Standard Aggregated CACs should be able to apply to:

(a) all foreign law governed debt securities issued by a sovereign debtor;

(b) all instruments issued by a sovereign debtor which are governed by English law or New York law only, or

(c) instruments issued by a sovereign debtor with the same foreign governing law only; meaning that there would be separate aggregation pools based on governing law and that aggregation of series of instruments with different governing laws would not be permitted?
7. Additionally, should the inclusion of Standard Aggregated CACs in domestic law debt securities also be encouraged? As seen in the case of Greece, countries may resort to the passing of domestic legislation to facilitate restructuring outcomes in respect of domestic law governed instruments which prescribe that aggregated collective action procedures may apply to contracts entered into prior to such legislation.

8. In the event that the introduction of the Standard Aggregated CACs was to be encouraged in respect of domestic law instruments, each sovereign debtor would need to undertake some enforceability analysis in respect of such clauses under local law.

   (i) If this were to raise no concerns under the national law of a country, are Members of the view that the adoption of collective action clauses in the domestic law governed debt securities of such an issuer would be beneficial?

   (ii) Do Members have any views as to whether in principle both domestic and foreign law instruments should be capable of aggregation for voting purposes or, as above, should domestic and foreign law instruments be aggregated in separate groups?

9. (i) Do Members also agree that, in respect of the single limb voting aggregation mechanism in the Standard Aggregated CACs, there should be no quorum requirement in relation to resolutions put to bondholders when the meeting provisions apply? The logic behind this is that retaining a quorum requirement in respect of each affected series of bonds could potentially weaken the advantages of the single limb voting aggregation mechanism as dissenting holders could, through the quorum requirements at the level of each affected series of bonds, prevent that series being included in the resolution being sought to effect the proposed modification or action. Historically, quorum requirements have provided an important legal safeguard where the voting threshold at the relevant meeting has been set by reference to those attending/casting votes at such a meeting and market practice has grown around this custom. In the case of Standard Aggregated CACs, the voting thresholds relating to reserved matters were set by reference to outstanding principal amount but the quorum requirements were, nevertheless, included. If the quorum requirements are not included in respect of the single limb aggregation mechanism, this will, however, create inconsistencies within the proposed form of Standard Aggregated CACs in that the quorum requirements are included in respect of reserved matters for the operation of the two limb voting aggregation mechanism and the series by series collective action mechanism.

   (ii) Do Members agree that, due to longstanding market practice in this area, these quorum requirements should be maintained nevertheless as they do not undermine the operation of these two voting mechanisms but that the single limb aggregation mechanism can dispense with the quorum requirement?

10. Do Members have any comments on the definition of the "Uniformly Applicable" condition?

11. Do Members have any comments on the Contiguous Maturities condition?
12. (i) Do Members have any comments on the scope of the Information undertaking?

(ii) ICMA would welcome thoughts on when the contemplated information should be provided and whether such information should only be required in the context of the single limb aggregation mechanism.

13. Are there any other issues or concerns with the use of the single limb voting aggregation mechanism which Members would like to raise?

14. As drafted the Standard Aggregated CACs envisage that separate meetings will be called/written resolutions put to each affected series of bonds. We note that some securitisations and MTN Programmes include aggregation provisions on the basis that a single meeting can be held in respect of multiple series of instruments issued under such framework documentation, if the same resolution is proposed to each series of noteholders and the resolution does not give rise to a conflict of interests between the holders of the instruments of any series. Subject to appropriate disclosure requirements and the ability of the Trustee/Fiscal Agent or other bondholder representative to obtain legal comfort as to the existence or not of a conflict of interest, do Members think it would be preferable to have only one meeting in respect of the single limb aggregation mechanism?

15. Do Members believe that use of the single limb voting aggregation mechanism should be limited to the confines of, for example, an MTN Programme or could the inclusion of such a mechanism be permitted in relation to any debt instrument the sovereign may issue (by incorporation by reference), in so far as this fact is disclosed? I.e. should only instruments issued pursuant to the same contractual framework be capable of being aggregated in one group?

16. Do Members think it would be more appropriate for the Aggregation Agent to be referred to as the Tabulation Agent?

17. Do Members agree that transparent and extensive disclosure (including by way of a risk factor in a Prospectus, where appropriate) of the scope and potential implications of the Standard Aggregated CACs would be an important legal safeguard and enhance market understanding?

18. ICMA would welcome thoughts on the mechanisms for establishing a Noteholders' Committee. Would Members agree that it would be appropriate to update ICMA's current form of Noteholders' Committee provision further to operate outside the confines of one series of Notes only in order to allow representation across multiple series of debt securities?

PROPOSAL ON STANDARD AGGREGATED CACS

19. The proposed new ICMA Standard Aggregated CACs for sovereign notes, as amended in this Consultation Paper Supplement to include a single limb voting aggregation mechanism, are set out in Part A of the Schedule attached hereto.

20. A blackline of the ICMA Standard Aggregated Collective Action Clauses is set out in Part B of the Schedule attached hereto, showing the amendments that have been made to the wording proposed in the Original Consultation Paper, for ease of reference.

THE TERMS AND CONDITIONS OF SOVEREIGN NOTES

[•] MEETINGS OF NOTEHOLDERS; WRITTEN RESOLUTIONS

(a) Convening Meetings of Noteholders; Conduct of Meetings of Noteholders; Written Resolutions

   (i) The Issuer may convene a meeting of the Noteholders at any time in respect of the Notes in accordance with the Bond Documentation. The Issuer will determine the time and place of the meeting. The Issuer will notify the Noteholders of the time, place and purpose of the meeting not less than 21 and not more than 45 days before the meeting.

   (ii) The Issuer or the [Fiscal Agent/Trustee/other bondholder representative] will convene a meeting of Noteholders if the holders of at least 10 per cent. in principal amount of the outstanding Notes (as defined in the Bond Documentation and described in paragraph (h) (Notes controlled by the Issuer)) have delivered a written request to the Issuer or the [Fiscal Agent/Trustee/other bondholder representative (with a copy to the Issuer)] setting out the purpose of the meeting. The [Fiscal Agent/Trustee/other bondholder representative] will agree the time and place of the meeting with the Issuer promptly. The Issuer or the [Fiscal Agent/Trustee/other bondholder representative], as the case may be, will notify the Noteholders within 10 days of receipt of such written request of the time and place of the meeting, which shall take place not less than 30 and not more than 60 days after the date on which such notification is given.

   (iii) The Issuer (with the agreement of the [Fiscal Agent/Trustee/other bondholder representative]) will set the procedures governing the conduct of any meeting in accordance with the Bond Documentation. If the Bond Documentation does not include such procedures, or additional procedures are required, the Issuer and the [Fiscal Agent/Trustee/other bondholder representative] will agree such procedures as are customary in the market and in such a manner as
to facilitate the processing of any multiple series aggregation, if in relation to a Reserved Matter the Issuer proposes any modification to the terms and conditions of, or action with respect to, two or more series of debt securities issued by it.

(iv) The notice convening any meeting will specify, *inter alia*;

(A) the date, time and location of the meeting;

(B) the agenda and the text of any Extraordinary Resolution, Multiple Series Single Limb Extraordinary Resolution or Multiple Series Two Limb Extraordinary Resolution to be proposed for adoption at the meeting;

(C) the record date for the meeting, which shall be no more than five business days before the date of the meeting;

(D) the documentation required to be produced by a Noteholder in order to be entitled to participate at the meeting or to appoint a proxy to act on the Noteholder's behalf at the meeting;

(E) any time deadline and procedures required by any relevant international and/or domestic clearing systems or similar through which the Notes are traded and/or held by Noteholders;

(F) whether paragraph (c) (Multiple Series Aggregation – Single Limb voting) or paragraph (d) (Multiple Series Aggregation – Two Limb voting) shall apply;

(G) if the proposed modification or action relates to two or more series of debt securities issued by it and contemplates such series of debt securities being aggregated in more than one group of debt securities, a description of the proposed treatment of each such group of debt securities;

(H) the identity of the Aggregation Agent for any proposed modification or action to be voted on at the meeting; and

(I) any additional procedures which may be necessary and, if applicable, the conditions under which a multiple series modification or action will be deemed to have been satisfied if it is approved as to some but not all of the affected series of debt securities.

(v) In addition, the [Fiscal Agency Agreement/Trust Deed/other bond documentation] contains provisions relating to Written Resolutions.

(vi) A "record date" in relation to any proposed modification or action means the date fixed by the Issuer for determining the Noteholders and, in the case of a multiple series aggregation, the holders of debt securities of each other affected series that are entitled to vote on a Multiple Series Single Limb Extraordinary Resolution or a Multiple Series Two Limb Extraordinary
Resolution, or to sign a Multiple Series Single Limb Written Resolution or a Multiple Series Two Limb Written Resolution.

(b) **Modification of this Series of Notes only**

(i) Any modification of any provision of, or any action in respect of, these Conditions or the Bond Documentation may be made or taken if approved by an Extraordinary Resolution or a Written Resolution as set out below.

(ii) An "Extraordinary Resolution" means a resolution passed at a meeting of Noteholders duly convened and held in accordance with the procedures prescribed by the Issuer and the [Fiscal Agent/Trustee/other bondholder representative] pursuant to paragraph (a) (Convening Meetings of Noteholders; Conduct of Meetings of Noteholders) by a majority of:

(A) in the case of a Reserved Matter, at least 75 per cent. of the aggregate principal amount of the outstanding Notes; or

(B) in the case of a matter other than a Reserved Matter, at least 66⅔ per cent. of the aggregate principal amount of the outstanding Notes which are represented at that meeting.

(iii) A "Written Resolution" means a resolution in writing signed by or on behalf of the holders of:

(A) in the case of a Reserved Matter, at least 75 per cent. of the aggregate principal amount of the outstanding Notes; or

(B) in the case of a matter other than a Reserved Matter more than 50 per cent. of the aggregate principal amount of the outstanding Notes.

Any Written Resolution may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

(iv) Any Extraordinary Resolution duly passed or Written Resolution approved shall be binding on all Noteholders, whether or not they attended any meeting, whether or not they voted in favour thereof and whether or not they signed a Written Resolution, as the case may be, and on all Couponholders.

(c) **Multiple Series Aggregation – Single limb voting**

(i) If in relation to a Reserved Matter the Issuer proposes any modification to the terms and conditions of, or any action with respect to, two or more series of debt securities issued by it and any related agreement governing the issuance of such debt securities, including the Notes, all of which contain (whether by inclusion, incorporation or otherwise) a multiple series aggregation provision analogous to and consistent with this Condition [•] (Meetings of Noteholders; Written Resolutions) and Condition [•] (Aggregation Agent; Aggregation Procedures), any modification of any provision of, or any action with respect to, the Notes may be made or taken if approved by a Multiple Series Single
Limb Extraordinary Resolution or by a Multiple Series Single Limb Written Resolution as set out below, provided that each of the Uniformly Applicable and Contiguous Maturities condition is satisfied.

(ii) A "Multiple Series Single Limb Extraordinary Resolution" means a resolution considered at separate meetings of the holders of each affected series of debt securities, including the Notes, duly convened and held in accordance with the procedures prescribed by the Issuer and the [Fiscal Agent/Trustee/other bondholder representative] pursuant to paragraph (a) (Convening Meetings of Noteholders; Conduct of Meetings of Noteholders), as supplemented if necessary, which is passed by a majority of at least 75 per cent. of the aggregate principal amount of the outstanding debt securities of all affected series of debt securities (taken in aggregate).

(iii) A "Multiple Series Single Limb Written Resolution" means each resolution in writing (with a separate resolution in writing or multiple separate resolutions in writing distributed to the holders of each affected series of debt securities in accordance with the applicable bond documentation) which, when taken together, has been signed by or on behalf of the holders of at least 75 per cent. of the aggregate principal amount of the outstanding debt securities of all affected series of debt securities (taken in aggregate). Any Multiple Series Single Limb Written Resolution may be contained in one document or several documents in substantially the same form, each signed by or on behalf of one or more Noteholders or one or more holders of each affected series of debt securities.

(iv) Any Multiple Series Single Limb Extraordinary Resolution duly passed or Multiple Series Single Limb Written Resolution approved shall be binding on all Noteholders and holders of each other affected series of debt securities, whether or not they attended any meeting, whether or not they voted in favour thereof, whether or not any other holder or holders of the same series voted in favour thereof and whether or not they signed a Multiple Series Single Limb Written Resolution, as the case may be, and on all Couponholders and couponholders of each other affected series of debt securities.

(v) In this Condition [*] (Meetings of Noteholders; Written Resolutions) "debt securities" means any notes (including the Notes), bonds, debentures or other debt securities issued by the Issuer in one or more series with an original stated maturity of more than one year which includes or incorporates by reference this Condition [*] (Meetings of Noteholders; Written Resolutions) and Condition [*] (Aggregation Agent; Aggregation Procedures) or a provision substantially in these terms which provides for the instruments which include such a provision to be capable of being aggregated with other instruments.

(vi) The "Uniformly Applicable" condition will be satisfied if:

(A) the holders of all series of affected debt securities are invited to exchange, convert, or substitute their debt securities, on the same
(ii) If in relation to a Reserved Matter the Issuer proposes any modification to the terms and conditions of, or any action with respect to, two or more series of debt securities issued by it and any related agreement governing the issuance of such debt securities, including the Notes, all of which contain (whether by inclusion, incorporation or otherwise) a multiple series aggregation provision analogous to and consistent with this Condition [*] (Meetings of Noteholders; Written Resolutions) and Condition [*] (Aggregation Agent; Aggregation Procedures), any modification of any provision of, or any action with respect to, the Notes may be made or taken if approved by a Multiple Series Two Limb Extraordinary Resolution or by a Multiple Series Two Limb Written Resolution as set out below.

(ii) A "Multiple Series Two Limb Extraordinary Resolution" means a resolution considered at separate meetings of the holders of each affected series of debt securities, including the Notes, duly convened and held in accordance with the procedures prescribed by the Issuer and the [Fiscal Agent/Trustee/other bondholder representative] pursuant to paragraph (a) (Convening Meetings of Noteholders; Conduct of Meetings of Noteholders), as supplemented if necessary, which is passed by a majority of:

(A) at least $66\frac{2}{3}$ per cent. of the aggregate principal amount of the outstanding debt securities of all affected series of debt securities (taken in aggregate); and

2 Meaning the same offer on principal and the same offer on all accrued but unpaid interest (or other relevant financial features of the bonds) but does not replace the same offer on every dollar/euro - or other currency as applicable of principal and unpaid interest.

3 This replicates (vi)(A) but in the context of the proposal by the Issuer being executed by way of amendments to the terms and conditions of each series of affected debt securities rather than an invitation to exchange, convert or substitute debt securities. In reality its application will be limited to circumstances where the affected debt securities had substantively similar terms initially and where holders of debt securities are being presented with one option only.
(B) more than 50 per cent. of the aggregate principal amount of the outstanding debt securities in each affected series of debt securities (taken individually).

(iii) A "Multiple Series Two Limb Written Resolution" means each resolution in writing (with a separate resolution in writing or multiple separate resolutions in writing distributed to the holders of each affected series of debt securities in accordance with the applicable bond documentation) which, when taken together, has been signed by or on behalf of the holders of:

(A) at least 66\(\frac{2}{3}\) per cent. of the aggregate principal amount of the outstanding debt securities of all the affected series of debt securities (taken in aggregate); and

(B) more than 50 per cent. of the aggregate principal amount of the outstanding debt securities in each affected series of debt securities (taken individually).

Any Multiple Series Two Limb Written Resolution may be contained in one document or several documents in substantially the same form, each signed by or on behalf of one or more Noteholders or one or more holders of each affected series of debt securities.

(iv) Any Multiple Series Two Limb Extraordinary Resolution duly passed or Multiple Series Two Limb Written Resolution approved shall be binding on all Noteholders and holders of each other affected series of debt securities, whether or not they attended any meeting, whether or not they voted in favour thereof, whether or not any other holder or holders of the same series voted in favour thereof and whether or not they signed a Multiple Series Two Limb Written Resolution, as the case may be, and on all Couponholders and couponholders of each other affected series of debt securities.

(v) In this Condition [*] (Meetings of Noteholders; Written Resolutions) "debt securities" means any notes (including the Notes), bonds, debentures or other debt securities issued by the Issuer in one or more series with an original stated maturity of more than one year which includes or incorporates by reference this Condition [*] (Meetings of Noteholders; Written Resolutions) and Condition [*] (Aggregation Agent; Aggregation Procedures) or a provision substantially in these terms which provides for the instruments which include such a provision to be capable of being aggregated voting with other instruments.

(c) **Quorum**

(i) **Single Series Extraordinary Resolution Quorum Requirement**

The quorum at any meeting of Noteholders convened to vote on an Extraordinary Resolution will be:

(A) one or more persons present and holding or representing at least 50 per cent. of the aggregate principal amount of the outstanding Notes; or
(B) where a meeting is adjourned and rescheduled owing to the lack of a quorum, at any rescheduled meeting of Noteholders, one or more persons present and holding or representing at least 25 per cent. of the aggregate principal amount of the outstanding Notes;

provided, however, that any proposals relating to a Reserved Matter may only be approved by an Extraordinary Resolution passed at a meeting of Noteholders at which one or more persons present and holding or representing at least 75 per cent. of the aggregate principal amount of the outstanding Notes form a quorum.

(ii) **Multiple Series Two Limb Extraordinary Resolution Quorum Requirement**

The quorum at any meeting of Noteholders convened to vote on a Multiple Series Two Limb Extraordinary Resolution will be one or more persons present and holding or representing at least \(66\frac{2}{3}\) per cent. of the aggregate principal amount of the outstanding Notes.

(f) **Reserved Matters**

In these Conditions, "Reserved Matter" means any proposal:

(i) to change the date, or the method of determining the date, for payment of principal, interest or any other amount in respect of the Notes, to reduce or cancel the amount of principal, interest or any other amount payable on any date in respect of the Notes or to change the method of calculating the amount of principal, interest or any other amount payable in respect of the Notes on any date;

(ii) to change the currency in which any amount due in respect of the Notes is payable or the place in which any payment is to be made;

(iii) to change the quorum required at any meeting of Noteholders or the majority required to pass an Extraordinary Resolution, a Multiple Series Single Limb Extraordinary Resolution, a Multiple Series Two Limb Extraordinary Resolution, a Written Resolution, a Multiple Series Single Limb Written Resolution, a Multiple Series Two Limb Written Resolution or any other resolution of Noteholders or the number or percentage of votes required to be cast, or the number or percentage of Notes required to be held, in connection with the taking of any decision or action by or on behalf of the Noteholders or any of them;

(iv) to change this definition, or the definition of "Extraordinary Resolution", "Multiple Series Single Limb Extraordinary Resolution", "Multiple Series Two Limb Extraordinary Resolution", "Written Resolution", "Multiple Series Single Limb Written Resolution", "Multiple Series Two Limb Written Resolution", "Uniformly Applicable" or "Contiguous Maturity";

(v) to change the definition of "outstanding" or paragraph (h) (**Notes controlled by the Issuer**);
(vi) to change the legal ranking of the Notes [or other specified substantive covenants as appropriate, to be determined on a case-by-case basis];
