### **International Capital Market Association (ICMA)**

ICMA represents financial institutions active in the international capital market worldwide. ICMA's members are located in 46 countries, including all the world's main financial centres. ICMA's market

conventions and standards have been the pillars of the international debt market for over 40 years, providing the framework of rules governing market practice which facilitate the orderly functioning of the market. ICMA actively promotes the efficiency and cost effectiveness of the capital markets by bringing together market participants including regulatory authorities and governments. ### **ICMA's regions**

ICMA has a strong regional organisation, with each of the twelve regions having its own committee which meets to deal with specific regional matters. Members may take part in the committee of their respective region, led by a chairman who, like the rest of the committee, is an active market participant from a member financial institution.

The Committee of Regional Representatives (comprised of the twelve regional chairmen) reports directly to the board of ICMA, enabling the viewpoints of each region to be fully represented.
